❖ BETTER PLANTS FOR BETTER GARDENS ❖

== EFFECTIVE FALL BLOOM ==

CHRYSANTHEMUMS

They give a bright splash of color to the desolate landscape of late Autumn and provide the last cheery blooms for the year. Plant in a well-drained rich soil and give a little winter protection. Sixty-five varieties have been discarded in the past three years as inferior under our own tests to those which we are offering. We are offering only varieties that can be depended upon to be in full flower before Oct. 15th, so as to escape frosts and freezing weather. Our experience is your guarantee of satisfaction. Varieties follow:

ALADDIN. Deep bronze. August until frost. The second most popular 'Mum in our nursery last Fall. 3 for 60c.

CARRIE. Beautiful yellow. Late August and September. 3 for 60c.

CRIMSON SPLENDOR. A large 4-inch single crimson-red flower with golden eye. Early October to frost. 3 for 60c.

DAPHNE. This variety and Mars are the only regular Korean hybrids that have retained a worthy place in our collection for you. A splendid single pink with a sheen of lilac-rose. Early October to frost. 3 for 60c.

EARLY BRONZE. The most popular 'Mum in our nursery last Fall. Bright yellowish-bronze. Late August and September. 3 for 60c.

INDIAN MAID. Lovely deep orange-terra-cotta. Early October to frost. 3 for \$1.00.

JEAN CUMMING. One of the best whites. September. 3 for 60c.

MARS. Deep amaranth-red single Korean. Early October to frost. 3 for 60c.

MURILLO. A reliable old rose. Early October to frost. 3 for 60c.

PINK CUSHION. The true name is Ameliae, but, also, seems identical to Azaleamum. Its cushion is completely covered with pink blossoms that resemble an Azalea from late August until frost. 500 to 1000 blooms on a single plant. One foot high. Use as single specimens or as groups in border, or rock garden. 3 for 60c.

PRINCESS. Finest and largest of the single whites. 3 for 60c.

RED FLARE. Immense buttons of orange-red. Early October to frost. 3 for 60c.

THE TORCH. Semi-double flowers of a very bright orange-scarlet with golden reverse. Early October to frost. 3 for \$1.00.

VIVID. Rosy-red. Early October to frost. 3 for 60c.

WARRIOR. Semi-double flowers of a deep crimson-maroon with golden reverse and a bright yellow center. 3 for \$1.00.

GARDEN TIPS

For your **ROCK GARDEN**, select plants 12 inches or less in height.

PLANT EARLY—as soon as your soil is in a workable condition.

SECURE STRONG TWO YEAR, TRANSPLANTED FIELD GROWN PLANTS. This size, with very few

exceptions, is the first essential to garden success. These are the kind of plants we grow for you. Do not be satisfied with little plants out of a seed bed or distorted, crowded plants out of a seed row which some companies call field grown.

FOR GARDEN EFFECT, plant 3 or more plants of a kind in a group. Large gardens may use a dozen or more of a kind in a group.

MAIL ORDERS receive our prompt attention.

If it is convenient, call at our nursery for your plants at any time during the spring planting season. We are located 1½ miles south of Bridgman on the U. S. 12 Highway.

VISITORS are always welcome.

HARDY ASTERS

They are becoming more popular every year for the Fall gardens. They bloom very profusely during late August and September. Following varieties are the best:

BARR'S PINK. Pink. 4 feet tall. 3 for 60c.

CHARLES WILSON. A striking bright red. The finest of its color to date. A compact bush and very free-flowering. Dandy. 3 feet. 3 for \$1.00.

MT. EVEREST. New. The best white Aster. Plants are well shaped pyramids with an abundance of lateral branches right down to the ground. 4 feet. 3 for \$1.00.

QUEEN MARY. Pleasing blue Asters, tinted lavender, arranged gracefully on branching panicles. 4 feet. 3 for 60c.

ROYAL BLUE. Rich deep purple blue. Early. 3 feet. 3 for 60c.

RYECROFT PURPLE. Large rich purple flowers on 5-foot stems in late September and October. No other Aster like it. 3 for 60c.

SKYLANDS QUEEN. Very large medium blue with a lavender sheen. Early. Showiest of all blues in its season. 3 feet. 3 for 60c.

YPRES. Most talked about Aster in our nursery last Fall. A compact pyramidal plant, 2 feet tall, literally covered with neat rosy-pink flowers, closely set on the stems from the ground to its tip. Here is a tip—make this your first choice. 3 for \$1.00.

DWARF HARDY ASTERS

A new race of free-flowering September blooming Asters that only grow from 8 to 12 inches high. Plants form compact mounds covered with flowers. Exceptionally valuable for edging or for grouping in front of the border and are very charming for the rock garden. Most visitors to our nursery last fall bought some. Following varieties are the very best of the 13 kinds that have been introduced:

MARJORIE. Bright rose-pink. 3 for 60c.

VICTOR. Clear pale lavender-blue. 3 for 60c.

SEDUM SIEBOLDI. The aristocrat of the dwarf Sedums. Pretty glaucous, pink margined leaves throughout the Spring and Summer, followed in September by large heads of beautiful pink flowers. 1 inches high. Excellent for rockery. 3 for 60c.

HARDY PLANTS FOR JULY AND AUGUST BLOOM

PHLOX

America's Most Popular Perennial

Phlox are the most effective and useful garden plants during late July, August, and September. They deserve a prominent place in every hardy flower garden as they give more display and satisfaction than any other flower. They prefer a soil that has been deeply enriched and should have plenty of water during the summer months. In watering, keep in mind that the foliage should be dry before night so as to help prevent mildew. Plant about a foot apart, and they will look so much better if you will plant 3 or more plants of a kind in a group. Our collection is a choice one and extreme care is used in making our color descriptions accurate.

PHLOX PRICES: Unless otherwise stated, plants are 25c each, 3 of a kind for 60c, or \$2.00 per dozen of a kind; 35c plants are 3 for \$1.00, or \$3.00 per dozen.

AFRICA. Dark carmine-red with blood-red eye.

ALDENHEIM TRIUMPH. Soft pink with cherry-red eye. Always effective and a very long bloomer.

BARON VON DEDUM. Orange-scarlet—less brilliant than Saladin, but much larger flower heads.

BEACON. Brilliant cherry-red.

BORDER QUEEN. Watermelon pink. Florets large as a silver dollar. New.

ECLAIREUR. Rosy-purple.

ENCHANTRESS. Soft salmon-pink with dark eye.

EUROPA. White with red eye, changing to a pale blush white with age.

EVANGELINE. Beautiful salmon-pink.

EVELYN. Pure salmon with red eye.

GEN. PETAIN. Deep wine-red.

GUY MOORE. Crushed strawberry. New shade.

JULES SANDEAU. Rich rose-pink.

MRS. W. G. HARDING. Deep rose; faintly flushed scarlet. 35c each.

MRS. JENKINS. Pure white.

PAINTED LADY. Silvery pink with salmon shadings and cherry-red eye.

ROYAL PURPLE. Best purple-blue. Nearest to a blue.

SALADIN. Brilliant orange-scarlet. Showy. 35c each.

WM. KESSELRING Violet with white eye.

MULLEIN PINK—*Agrostemma coronaria atrosanguinea*
Bright rosy crimson flowers. 2 feet high. Constant bloomer all summer. 3 for 50c.

MARGUERITE—*Anthemis Perry's Variety*
Large, golden yellow daisies as big as a coffee-cup that will last a week or more when cut. Blooms all summer. 18 inches high. Will grow in the driest and poorest of soils. 3 for 50c.

SILVER KING ARTEMISIA
Its sprays of bright frosted silvery white foliage give an unforgettable affect all summer and also it may be cut to mix in winter bouquets. 2 feet high. 3 for 60c.

CARYOPTERIS MONGOLIENSIS
Gray leaved shrubby little plants, 12 inches high, with unusual tube-like beautiful medium blue flowers with fringed mouths. All gardens need this flower in August. Cheap at 3 for 60c.

INDIAN SENNA—*Cassia marylandica*
Plants amongst the shrubbery or at the back of the wide perennial border are attractive. A shrubby plant, 5 feet high, with locust-like foliage and racemes of yellow pea-like flowers in July. 3 for 60c.

CARPATHIAN HAREBELL—*Campanula carpatica*
Compact upright plants with large open, pendant blue bells on wiry six-inch stems from June to August. Lovely in rock garden in sun or shade. 3 for 60c.

BLUEBELLS OF SCOTLAND—*Campanula rotundifolia*
Desirable rockery plant for sun or shade. Eight-inch panicked spikes of dainty little blue drooping bells all summer. 3 for 60c.

CARNATION HARDY HARVARD
This new carnation is very much improved over Crimson King. It has larger flowers, more flowers, and more showy in its deep crimson color from the middle of July to October. Further, it is hardier—standing winter temperatures of 20 degrees below zero. 3 for 75c.

SHASTA DAISY, MRS. C. L. BELL
Large snow-white daisies on 18-inch stems. June to August. 3 for 50c.

SHASTA DAISY, SUPREME
And, it is supreme. Flowers are 5 inches in diameter. 3 for 60c.

COREOPSIS MAYFIELD GIANT
A highly improved variety of the old ever-popular Coreopsis lanceolata. Bold golden yellow daisies during the entire summer if the old flowers are kept picked or cut off. 2 feet tall. 3 for 50c.

FOXGLOVES—*Digitalis*
This Shirley Strain produces tall graceful spikes of bell-shaped flowers. Colors range from rose through pinks to white. June and July. 3 feet tall. 3 for 50c.

GAILLARDIA
One of the most desirable and easily grown perennials. A light soil is best for their successful culture. They cannot be depended upon to survive the winter on heavy clay soils, but do splendidly on soils of a light or medium character. They bloom throughout the summer, 1½-2 feet. Varieties follow:
Burgandy. A rich deep red Gaillardia; occasionally a flower is tipped with gold. 3 for 50c.
Portola. This Gaillardia has rich crimson rays that are tipped yellow. 3 for 50c.

GERANIUM SANGUINEUM
Prostrate habit with dark green foliage and large blood-red flowers, tinted purple, all summer. 12 inches high. Easy. 35c each.

BABY'S BREATH BRISTOL FAIRY—*Gypsophila*
The best of the cut flower varieties with very large pure white double flowers in misty sprays continuously throughout the summer. 2-3 feet tall. 50c each.

ROCK GARDEN BABY'S BREATH—*Gypsophila repens*
Valuable for rockeries. Trailing plant with clouds of small white flowers in July. 3 for 50c.

HELEN'S FLOWER—*Helenium autumnale rubrum*
Very showy plants in August and September when the 3 to 4-foot high plants are covered with bright terracotta red daisy-like flowers. 1½ inches in diameter. 3 for 60c.

CORAL BELLS—*Heuchera sanguinea*
Little red bells in graceful panicles, 12 inches long from June to September. Sun or light shade. 3 for 60c.

DAY LILY—*Hemerocallis thunbergii*
Leafless stems topped by large yellow flowers belonging to the Lily family arise from showy, well-rounded hushes of reed-like curving foliage in July. 3 feet tall. 3 for 60c.

HIBISCUS—Mallow
Perennial shrub-like plants with very large pink, white, or red single Hollyhock-like flowers in July and August. 4 to 5 feet tall. Good amongst shrubbery or in back of perennial border. State color. 3 for 60c.

HOLLYHOCK CHATERS PRIZE
Colossal spikes of double red, pink, or white flowers. Found in every old-fashioned garden. Valued interspersed amongst shrubbery or as accents in the hardy border. June and July. 4 to 6 feet tall. State color. 3 for 50c.

PLANTAIN LILY—*Hosta* or *Funkia*
Very valuable shade plants; also will grow in sun. Their broad massive foliage makes them attractive for the border even when not in flower. Following varieties are offered:
Coerulea. Deep green leaves and blue pendant flowers in July and August. 1-1½ feet high. 3 for 60c.

Subcordata grandiflora. Light green leaves and waxy white lilies in August. 18 inches high. 3 for 75c.

Prices

Plants priced at 3 for 50c are \$1.60 per dozen of a kind; those priced at 3 for 60c are \$2.00 per dozen; and plants priced at 3 for 75c are \$2.40 per dozen. If as many as 25 plants of a kind are wanted, write for special prices.

TRANSPORTATION CHARGES are paid by the customer. We will send you a notice of the exact cost of transportation after the plants are sent.

Prices in this folder effective until June 15, 1937.

LAVENDER—*Lavandula vera*
Its lavender spikes from June to August are known to almost everyone. 15 inches high. 3 for 60c.

BLAZING STAR—*Liatris pycnostachya*
Long, narrow, plummy spikes of lavender-purple appear in August. 3-4 feet. Blooms from the top downward rather than from the bottom upwards. Plant behind Silver King Artemisia for beautiful effect. 3 for 60c.

LILIES
All the world loves them. They need perfect drainage and are best planted in the fall, although the following varieties give good results when planted in early spring:
Red Russian (*L. elegans*) Showy orange-red upright Lilies in June. 1-1½ feet. 3 for 60c.

Regal Lily. One of the finest, easiest and most popular. Pure white, shaded pink on the reverse of the petals. Late June and July. 3-4 feet. 3 for 60c.
Coral Lily (*L. tenuitolum*). A charming little gem of the family with deep scarlet flowers on 12-18 inch stems in June. Everyone adores it. 3 for 60c.

Tiger Lily. An old favorite with very easy culture. A deep orange Lily with black spots. August. 4 to 5 feet high. 3 for 60c.

BLUE FLAX—*Linum perenne*
Slender, graceful ornamental 12-inch stems terminated with pretty pearly blue saucer-shaped flowers. New ones appear each morning throughout the summer. 2 for 50c.

MALTESE CROSS—*Lychnis chalconica*
Showy heads of vivid scarlet all summer. 2 feet tall. 3 for 50c.

MONARDA CAMBRIDGE SCARLET
Brilliant crimson-scarlet flower heads in July and August. Grows almost anywhere. 2 feet. 3 for 60c.

EVENING PRIMROSE—*Oenothera missouriensis*
Prostrate stems, 8-12 inches high with large solitary yellow flowers, often 4 inches across. July and August. 3 for 60c.

VIVID FALSE DRAGONHEAD—*Physostegia virginica*
Vivid
Highly improved variety. Spikes of deep pink Snapdragon-like flowers in August and September. 2-3 feet tall. 3 for 60c.

BALLOON FLOWER—*Platycodon grandiflorum*
Neat plants of upright habit. Large showy deep blue bells, preceded by blue balloons, on 2-3 foot stems in July and August. 3 for 60c.

Delphinium

One of the five dominant perennial border plants. Fortunately they can be grown in every garden, but in the hot, dry parts of the country they do not live so long. Long spikes of closely set lovely blue flowers. Grows best in a rich soil that is well supplied with lime. 3 to 5 feet tall. Effective when planted with Madonna or Regal Lilies. The following varieties are superb:

Belladonna Improved. The finest light blue. 3 for 50c.

Bellamosum Improved. A larger dark blue with flowers of a deeper and more uniform color. 3 for 50c.

Blackmore and Langdon Hybrids. This English Strain of Delphiniums are the finest in the world. Exceedingly beautiful in various shades of blue, pink and mauve. 3 for 50c.

POTENTILLA TONGUE

A rock plant of the highest rate, because it blooms during July, August, and September. Prostrate foot long stems with showy apricot-colored flowers, blotched crimson. 3 for 75c.

SALVIA PITCHERI

A beauty. Much better than *Salvia azurea* — more branching habit and larger, darker blue flowers. 3 for 75c.

SEDUMS

The following varieties are the best from our collection of 100 kinds:

Acre. A large spreading ground cover for sunny places, obscured by a mass of golden yellow flowers during late May and June. 3 for 50c.

Album purpureum. Thick linear purple foliage carpets. Spreading. 4 inches high. 3 for 50c.

Elegans. Pretty glaucous, bluish green bushlets. 3-4 inches high. 3 for 60c.

Ellacombianum. Amongst the first five most desirable Sedums for the rock garden. A 6-inch bushy green mound, that takes on glorious colors of orange and red in Autumn, and yellow flowers in July. 3 for 50c.

Sarmentosum. The best Sedum for a ground cover for hot, dry places. Grows rapidly. Very prostrate. 3 for 50c.

Spectabile (Showy Stonecrop). Broad succulent green leaves on 12-15 inch stems with large pink umbels in August and September. 3 for 50c.

HEN AND CHICKENS—*Sempervivum*
Interesting plants forming masses of rosettes of succulent leaves. Very attractive among rocks. Below are the best of our 40 varieties:

Atrovioleaceum. Very striking. Deep purplish red leaves on rosettes 6 inches in diameter. 3 for 60c.

Fimbriatum. Small fringed rosettes in a circle about the "Hen". 3 for 45c.

Mauvine. Large glaucous rosettes with a purplish cast. 3 for 60c.

Tectorum. The old-fashioned Hen and Chickens. 3 for 45c.

AUTUMN CATCHFLY—*Silene schaffa*
A charming rock plant, 4 to 6 inches high, with masses of bright pink flowers in July and August. 3 for 60c.

STOKES ASTER—*Stokesia laevis*
One of the better late summer-flowering plants. Large Aster-like flowers on 12-inch stems in July and August. Everyone likes it. 3 for 60c.

TRITOMA PFITZERI—Red Hot Poker
Produces an illusion of flaming fire. Rich orange spikes, with a shade of scarlet, in August and September. Grass-like foliage. 2 feet tall. Very effective in the border or formal beds in full sun. Needs a little winter protection. 3 for 60c.

DOUBLE COATFLOWER—*Tunica saxifraga rosea* fl. pl.
Slender stemmed, graceful rock or wall plants covered with lovely double pink Baby's Breath-like flowers all summer. Really choice and very desirable. 3 for 60c.

THYME—*Thymus*
Prostrate creeping, 4 inches high, perennials with fragrant foliage. Suitable for margins of dry, sunny banks, slopes, or rock garden.

Lemon Thyme (*T. citriodorus*). Lemon-scented variety with lilac-purple flowers. 3 for 60c.

Woolly Thyme. (*T. lanuginosus*). Woolly leaved, quick spreading, prostrate plant. Perfect drainage must be supplied. 3 for 60c.

White Thyme. (*T. serpyllum albus*). Bright green mat and a cloud of white flowers. 3 for 60c.

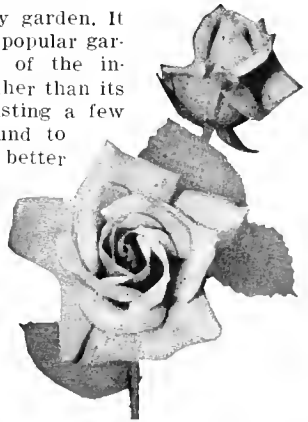

Crimson Thyme (*T. serpyllum coccineus*). Lovely red foliated mat in early spring. Sheet of small crimson flowers in June and July. 3 for 60c.

Silver Lemon Thyme. Instead of being prostrate, this is a 6-inch sub-shrubby plant, with fragrant, variegated foliage. 3 for 60c.

CLUMP SPEEDWELL—*Veronica longifolia subsessilis*
One of the best plants for the hardy border and the best blue flowered perennial for August bloom. Attractive foliage and thick spikes of deep blue. 18 inches high. 3 for \$1.00.

Dependable Roses

Roses are grown in every garden. It may be classed as the most popular garden flower today, because of the individuality of its blooms rather than its landscape effect. We are listing a few varieties that we have found to be good and amongst the better kinds under average conditions. You will note that they are reasonably priced for 2 year No. 1 field grown plants. No better plants are obtainable. These are Northern grown and, hence, are worth twice as much as Southern grown ones.

ETOILE DE HOLLANDE. Brilliant red and free flowering. 60c each.

MRS. PIERRE DU PONT. Lasting fragrant Rose of a deep golden yellow. 60c each.

RADIANCE. Bright rose-pink. Constant bloomer and excellent cut flower. 60c each.

PAUL'S SCARLET CLIMBER. The most popular of all climbing Roses. None can compare with it for brilliancy of color in its vivid scarlet. 60c each.

PANSIES

This year, again, we have two fine large beds of pansies. Last year thousands of people commented on the brilliance and beauty of our pansy beds. Stop in at our nursery this spring and get your pansies, freshly dug—not those that have stood around in baskets in front of some grocery store for a week or more. Plant as early as possible for best results. You get the best in Pansies when you get our Improved Swiss Giants in mixed colors.

FORGET-ME-NOTS

We have a limited supply of Forget-me-nots for sale in Pansy baskets for those who call at our nursery. As you know, they give an abundance of flowers until late in the summer.

ANNUAL FLOWERING PLANTS

The following annual flowering plants will be ready about May 15th, for our nursery visitors. Wilt resistant Aster Queen of the Market, *Calendula* Orange King, *Mari-golds*, Guinea Gold and Yellow Supreme, Double Portulaca, *Salvia* Improved, Large pink, red and yellow Zinnias, Little Salmon-Rose Pompon Zinnias, Snapdragons, and Rose of Heaven and Blue Bird Petunias.

PLANTS FOR FALL PLANTING

Most of the plants offered in this folder, excepting Chrysanthemums, Asters, and Tritoma may be planted in the month of September and October as well as in the Spring. You will be pleased with Fall planting—try it. But there are a number of kinds of plants that should by all means be planted in the Fall. A folder, describing and pricing these plants, will be sent about September 1st. If you wish, leave us your order for these plants when you visit us this spring and they will be sent to you at the proper planting time this Fall.

Some of these plants are: Iris, Peonies, Virginia Bluebells (*Mertensia*), Foxtail Lily (*Eremurus*), Oriental Poppies in the following varieties: Oriental (orange), Lula A. Neeley (blood-red), Mandarin (a new orange), Mrs. Perry (salmon-pink), and May Queen (a double orange that is much more double than Olympia), and Lilies in the varieties: Madonna, Red Russian (*elegans*), Formosanum, Regal, Coral, Golden Coral, and Tiger.

FOR YOUR BENEFIT

We have discontinued over four hundred kinds of perennials and rock plants from our extensive collection during the past two years. When you buy plants from us, you are assured of receiving plants that have a real garden value—not some junk. As new plants are available, we try them in our gardens, and offer them to you only when they prove to be superior and especially worthwhile.

Spring Blooming Perennials and Rock Plants

BASKET OF GOLD—*Alyssum saxatile compactum*

Cheeriest of the early spring blooming plants. Never fails to delight. Masses of golden yellow flowers in April and May. 12 inches high. Indispensable for the rockery or front of border. Needs good drainage. 3 for 50c.

AQUILEGIA—Columbine

We offer two varieties of the best hybrids: **Crimson Star**. Large flowers with crimson sepals and spurs and white centers. An entirely new color in Columbines. 3 for 60c.

Dobbies Imperial Hybrids. This is the best strain of the lovely long-spurred hybrid Columbines. Range of colors as of the rainbow. For shade or sun. 2 feet. Mixed colors. 3 for 60c.

DOUBLE ROCK CRESS—*Arabis albida flore pleno*

One of the earliest spring bloomers. April. Double white flower masses. 6 inches high. Drought-resistant. 3 for 60c.

VARIEGATED ROCK CRESS—*Arabis albida variegata*

Somewhat similar to Double Rock Cress, but with leaves edged or variegated with light yellow. Interesting. 3 for 60c.

CUSHIONY SANDWORTS—*Arenaria*

Dense creeping cushions of green moss, flecked with tiny white flowers. 3 inches high. Good in shade or planted behind a stone. We offer this in two forms: Deep green or golden green at 3 for 60c of a kind. The golden green variety will stand more hot sunshine than the deep green one.

THRIFT—*Armeria Lauchiana*

From tufts of glossy leaves arise wiry stems bearing globular heads of pink to rose flowers. For edging of borders and rockeries. 6 to 10 inches high. 3 for 60c.

CANTERBURY BELLS—*Campanula medium*

While these are only biennials, they are always a favorite. Large beautiful rose or blue bells in late May and June. 2 feet tall. State color. 3 for 50c.

SNOW-IN-SUMMER—*Cerastium tomentosum*

A real good name. Prostrate spreading mats of silvery foliage. White flowers in May. 6 inches high. Rampant. 3 for 50c.

SWEET WILLIAM—*Dianthus barbatus*

A well-known, attractive, free-flowering hardy biennial. May and June. Splendid effect in beds and borders. Reseeds itself readily. Following varieties are best: **Blood-Red**. 3 for 50c. **Pink Beauty**. Salmon-pink. 3 for 50c. **Scarlet Beauty**. 3 for 50c.

BLEEDING HEART—*Dicentra spectabilis*

A favorite of old and new gardens. Long racemes of large pink heart-shaped flowers in May and June. Grows about 2 feet tall and with a spread of 1½ feet. Good for shade or sun. 3 for \$1.00.

PLUMY BLEEDING HEART—*Dicentra eximia*

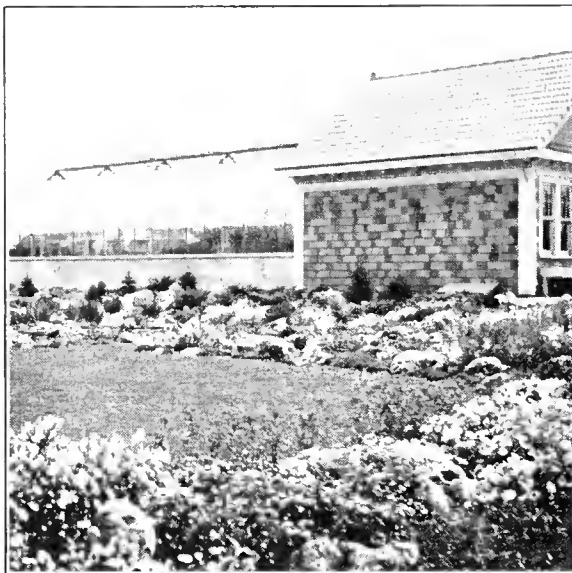

A compact plant with finely cut fern-like leaves and racemes of small pink heart-shaped flowers throughout the summer. Grows in sun or shade so can be used in the rock garden, perennial garden or wild garden with equal success. 1 foot tall. 3 for 60c.

SILVERY SPURGE—*Euphorbia myrsinites*

Valued for its prostrate bluish foliage branches. Unusual appearance when hanging over rocks. 6 inches high. 3 for 60c.

CANDYTUFT—*Iberis sempervirens*

Dwarf evergreen bushlets completely hidden by dense heads of pure white flowers in May. 8 inches high. 3 for 60c.

GARDEN PINKS—*Dianthus*

No garden is complete without a liberal planting of the various Pinks. They may be used in the rock garden, rock wall, or to edge the border. No place is too hot or dry for them. Following varieties are offered:

Maiden Pink erecta. An improved form of the regular *Dianthus deltoides*. Plants are more compact and stand erect and not sprawly. Rose-colored flowers in May, June and July. 6 inches high. Decided worth. 3 for 50c.

Maiden Pink Major Stearns. A variety of Maiden Pink with crimson-red flowers and bronzy foliage. 3 for 50c.

Her Majesty. Really a double white Hardy Carnation. Fragrant. 3 for 60c.

Little Jock Hybrids. New. Compact little plants, 6 inches high, bearing multitudes of fringed flowers in tints of pink, rose and white. 3 for 50c.

Clove Pink (*Dianthus plumarius fl. pl.*). An old familiar plant with mostly double—a few single—flowers from white to crimson. Mixture. 3 for 50c.

Princess Juliana. Attractive large single salmon-pink flowers. 3 for 50c.

Rose Cushion. This compact Cushion-Pink is one of the most desirable of the Pinks for the rock garden. It does not sprawl and when not in flower the plant is a neat little round mound. Rosy-pink flowers in June. 3 inches high. 3 for 60c.

CUSHION SPURGE—*Euphorbia polychroma*

Very effective as specimens in the rock garden. Always attracts much interest. Mounds of yellow flower bracts in May. 12 inches high. 3 for \$1.00.

SUN-ROSE—*Helianthemum*

Dwarf, evergreen shrubby perennials, 6 inches high. Very showy plants for a sunny place in the rock garden or on dry banks. Varieties follow:

Apricot. A new shade. 3 for 60c.

Buttercup. Golden yellow. Single. 3 for 60c.

Fireball. Like little double roses. Dull scarlet. 3 for 60c.

DOUBLE LYCHNIS—*Lychnis viscaria splendens fl. pl.*

Umbels of double, deep red fragrant flowers in June. Showy. 12 inches high. 3 for 60c.

VIRGINIA BLUEBELLS—*Mertensia virginica*

Beautiful for naturalizing in partial shade. Drooping panicles of pink bells changing to blue as they grow older. Late April and May. 18-24 inches. Best planted in the Fall or early April. 3 for 50c.

ROCK SPEEDWELL—*Veronica rupestris*

Prostrate creeping plants with dainty spikes of bright blue flowers in May. 3 for 60c.

PHLOX (DWARF VARIETIES)

These kinds are low spreading plants with mossy evergreen foliage that give solid sheets of color during May, 6 inches high. The soil should be well-drained and not too rich. Excellent for the rockery, front of the hardy border, and for covering terraces, dry hillsides and graves. Following varieties are offered.

Bifida. A rare plant with long strap-like leaves and showy blue flowers. May and June. 3 for 50c.

Subulata alba. White flowered form of the well-known Moss-Phlox. 3 for 50c.

Subulata Appleblossom. Delicate apple-blossom-pink. 3 for 50c.

Subulata Blue Hills. Blue flowers, tinged lavender. A little later than Phlox bifida. 3 for 50c.

Subulata Autumn Rose. Blooms in May and early June and again in Sept. and Oct. Bright rose with large red center. 3 for 60c.

Subulata Brilliant. The most colorful display of all, a bright crimson-red. 3 for 50c.

Subulata Fairy. A small and dainty form with pale blue flowers with purple eye. 3 for 50c.

Subulata rosea. The well-known popular rosy-pink variety. 3 for 50c.

Subulata Vivid. A compact grower. The choicest of all for the rock garden. Bright clear pink with a darker eye. 3 for 60c.

PRIMROSES—*Primula veris*

Most beautiful and interesting of May bloomers. 6 inches high. Lovely when massed in a half shady spot or when planted behind a stone in the rock garden. Mixed colors of white, yellow, and rich red. 3 for 60c.

PAINTED DAISIES—*Pyrethrum*

The common kinds are known to all. Good cut flower. 18-24 inches high. June bloomers. Below are listed varieties that are better:

Huntington Doubles. These will not come 100% doubles, but a good percentage will be doubles. They come in mixed colors, mostly pinks. 3 for 60c.

James Kelwayi. This is a large flowered single red. About 80% of the plants will be true red; the remainder will be pink to rose. An excellent variety you will agree. 3 for 60c.

SOAPWORT—*Saponaria ocymoides splendens*

Prostrate, trailing plant, 2-3 feet in diameter with a cloud of dainty pink flowers in late May and June. 6 inches high. 3 for 60c.

FERNY SPEEDWELL—*Veronica armena*

Delicate ferny foliage. Beautiful blue flowers in June and again in September. 4 inches high. 3 for 60c.

WOOLLY SPEEDWELL—*Veronica incana*

White woolly plants with 2-inch blue spikes in June. Attractive plant throughout the year. Useful in rockery or for edging paths and flower beds. 3 for 60c.

VIOLA—Tufted Pansies

Very popular bedding plants blooming from early spring until late Autumn, if old blossoms are kept picked off. Best in rich soil and will thrive in a bit of shade. Partially perennial. Following varieties are excellent:

Admiration. Deep violet. 3 for 45c.

Arkwright Ruby. New. Ruby-red velvety appearance, marked with maroon in center. 3 for 45c.

Chantreyland. The finest pure apricot yet developed. Superior to the older Apricot. 3 for 45c.

Jersey Gem. One of the most popular. Longer lived. Bright purple-blue. 3 for 50c.

Lutea splendens. Rich golden yellow. 3 for 45c.
